Report of Principal and School Improvement Council

The faculty and staff at Maryville Elementary School believe in working hand-in-hand with the parents and community. We strive to offer stimulating instructional programs that will challenge our students to work toward their full academic potential.

Throughout the year we continue to assess student progress to improve instructional strategies used in our classrooms to meet the needs of our diverse population. It is necessary for us to develop enrichment, as well as remediation programs, at all levels of instruction through academic tutors, focus groups, and continuous flexible grouping to meet the needs of individual students. The students achieved much success this year with these in place. Simultaneously we continue to examine data from common assessments, Benchmarks, DIBELS, and MAP and made adjustments to instruction as needed. Along with the implementation of Voyager in our resource classes these practices were significantly beneficial to our students' growth in decoding, comprehension, and fluency.

All students are immersed in literature at the students' appropriate reading level through fiction and non-fiction text. Through the continued professional development and focus on varied teaching strategies to enhance their knowledge.

Maryville students are provided with opportunities through various areas of discipline. Opportunities or students' continued growth and development through technology, music, art, and physical education. Annually, our Special Needs students participate in the local and state Special Olympics in which they return adorned with medals. Our students also have the opportunity for continued growth through musical performances.

Maryville's P.T.O. has been a tremendous partner for our faculty, staff, and students. They provide classroom/field trip requests and teacher incentives. The P.T.O. is also generous when showing appreciation to faculty and staff throughout the year.

We are dedicated to achieving our mission by developing critical thinkers and preparing each student to be responsible while challenging them through their educational experience. Academic success is a top priority. We ask for your continued support through this journey.

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
